The National Active and Retired Federal Employees Association (NARFE) is the only association dedicated to safeguarding and enhancing the benefits of America's active and retired federal employees, and their survivors.

EVENT: CHARLES R. PATTON CHAPTER 156 FEBRUARY MEETING
WHEN: SATURDAY, FEBRUARY 12, 2011
WHERE: J&S CAFETERIA, WESTRIDGE MARKET PLACE, ENKA, NC 28729
TIME: BREAKFAST AT 9:30, MEETING AT 10:15 AM

FEBRUARY PROGRAM

Our February program will be on Taxes – The 2010 Tax Year, what is new or changed for 2010, what is sometimes or often missed, what may be coming up for 2011, and discussion. Our Speaker is Sam Crain, Member of Smokey Mountain NARFE Chapter 1420 (Waynesville), treasurer for NARFE's NC Federation of Chapters and tax return consultant with H&R Block. Sam presented our program last year which was very informative and helpful. Plan to join us for an enlightening and useful program.

FROM THE PRESIDENT'S DESK

My hope is that you all had a joyous and meaningful Christmas and in your own way celebrated the start of a New Year. Sandy and I were blessed to travel to Ft. Wayne, IN to celebrate Christmas with her 92-year-old mother and then return home to usher in the New Year with our Son and daughter and their spouses. Now following a very short trip to MD and VA, cancelation of our Chapter planning meeting, and shoveling or otherwise dealing with snow, I am ready to roll up my sleeves for another year for NARFE.

First item of business is rescheduling our Chapter planning meeting. I am in contact with all who were initially planning to attend and hope we can meet before the end of January. If it is not too late when you receive this newsletter and you would like to join us at that meeting, please call me (828-658-2131). An important area of input is Chapter meeting programs. We have a list of potential programs for the year but this can always be updated to reflect the ideas of our membership. Closely related to program ideas is membership input on what you would like included in our chapter meetings. Let's fill our meeting room to capacity in 2011.

We do not start this year with notices and bio's of candidates running for NARFE National office and planning for our National convention. We have already selected a great NARFE leadership team, but they cannot act alone. The support of our Federation, Chapters and you as members is needed for NARFE to be as effective as it can be. This year will be an especially challenging year for NARFE to work toward its goals. The current economic climate, health care, budget deficits, national debt, and the recommendation of our President's Council on Debt Reduction all weigh heavily on the minds of our congresspersons in Washington elected. Although the new leadership in the House of Representatives has vowed to not cut spending for seniors, national defense, and veterans, we need to keep abreast of issues, stay in touch with our elected leaders, and let our views be known. This is also a good reason to retain your membership and to introduce NARFE to other potential members as we promote fairness in the political arena.

Lastly, for those who can, plan to attend this year's Federation of Chapter's State Convention. It will be held in Carolina Beach, a bit far for some to travel, but a great place to interact with NARFE leadership, be involved with the business of your Federation, and enjoy meeting and visiting with fellow active and retired federal employees. See the following article regarding the State Convention.

Theron Rumsey, President

NC FEDERATION OF CHAPTERS STATE CONVENTION

Mark your calendar now to attend our 2011 State Convention at the Courtyard by Marriott at Carolina Beach, on May 4-6. The convention program and facilities are a real bargain at $55 registration (including the reception and banquet) and $89 plus tax room rate which includes a private balconies & ocean views. More details to follow in our Federation Newsletter regarding registration (due by April 10) and participation as a chapter delegate and/or committee member. Plan to be a part of a great informative and entertaining NARFE meeting.

MEET OUR NEW CHAPTER 1ST VICE PRESIDENT

Tom joined us in Asheville in 2000 after a 40 year career with various elements of the Department of Defense. This included 4 years active duty with the Strategic Air Command as a senior electronics technician followed by service in the Naval Reserve as a Nuclear Weapons Employment Officer. He holds a BS in Math & Physics from MSU in Texas and an MS degree in Computer Science from Texas A&M. In addition an MS degree in Operations Research (ABT) from Texas A&M.

His Civil Service work with DoD included 6 years with the Naval Weapons Laboratory in targeting and damage assessment for Nuclear Weapons, 3 years with European Intelligence community in France and Germany as an Operations Research Analyst, 12 years with the Air Force Manpower & Personnel Center, again as an Operations

Research Analyst. Then a five year break working as a contractor analyst/statistician with the Air Force medical community. Returning to DoD as a direct hire he worked as an analyst-programmer with the Army medical community at Fort Sam Houston in San Antonio. He capped his career with 5 years at the Army Modeling and Simulation Center for large-scale combat simulations at Fort Leavenworth, KS. Throughout his career commencing with his first job out of Univ., he was an active participant of the Military Operations Research Society, presenting many papers at national conferences and chairing the Manpower & Personnel Modeling Workgroup at the US Naval Academy.

Since retirement he has been involved in volunteer work thru the One Youth At A Time program working both as a mentor and a tutor. Additionally he has been active in the NARFE and the NAWCC (National Association of Watch and Clock Collectors). He has pursued his interest in teaching by offering short courses at the College for Seniors thru the NC Center for Creative Retirement.

Tom & Kate (also a member) have their adult children located in 5 states so they see a lot of travel throughout the year. The children have widely diverse careers from stay-at-home mothers to MD resident, but none has chosen to follow in their parents' footsteps of computer sciences or law.
